XIX COMPUTATIONAL MATHEMATICS SCHOOL WAVELETS AND STATISTICS

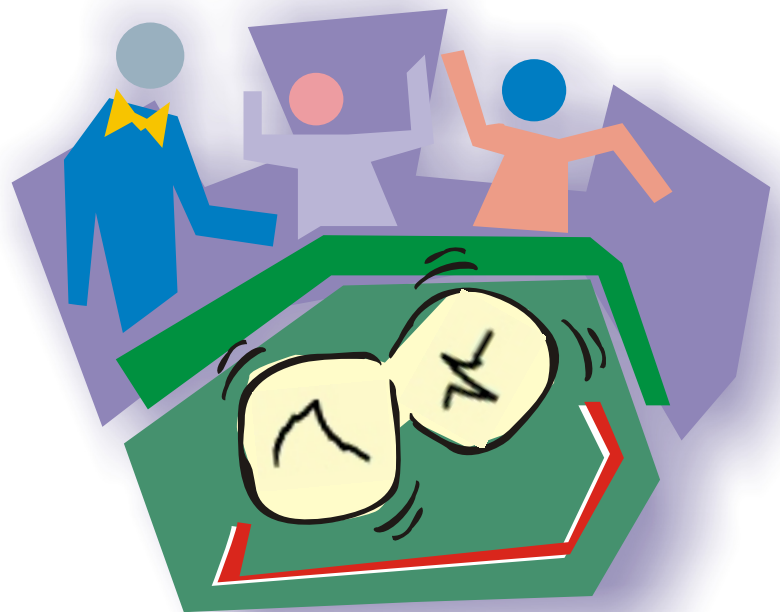

Organized by Istituto per Applicazioni della
Matematica of the Italian National Research
Council

The School will take place at Hotel Aequa, Vico
Equense, Napoli (Italy) on April 2-7, 2001

With the support of the Italian Space Agency

Activities

- Team thought lectures on curve estimation, linear inverse problems, density estimation, change-point detection, spectral density estimation, time series by Dr. F. Abramovich (University of Tel Aviv, Israel), Prof. A. Antoniadis (LMC-IMAG, University J. Fourier, Grenoble, France), Prof. B. Vidakovic (Georgia Institute of Technology, Atlanta, USA)
- Introduction to Wavelab and practical exercises on PCs
- A fantastic *gooselet game* with final prize

Information and registration: Istituto per Applicazioni della Matematica CNR, Via Pietro Castellino 111, I-80131 Napoli (Italy),
